# VENOSAN® 7000

Natural touch compression.

# VENOSAN® 7000

## Natural touch compression stockings and arm sleeves.

The combination of SeaCell® and firm, knitted fabric not only guarantees excellent therapeutic results, but also cares for the skin.

### Natural SeaCell® fibers

Designed with unique organic substances found in seaweed known to help activate cell regeneration to support skin health, relieve skin diseases, reduce inflammation, and soothe itchiness.

### Durable

Provides high durability from its strong seamless knit structure with two-way stretch.

### High stiffness\*

Provides stronger massage effect to help provide more effective therapy — comparable to Rosidal® K short stretch bandages.

### Skin-friendly

Combines organic SeaCell®, TACTEL® microfiber, and cotton yarns for a comfortable garment experience.

### Swiss comfort

Manufactured in Switzerland to the highest standards.

### Available Styles

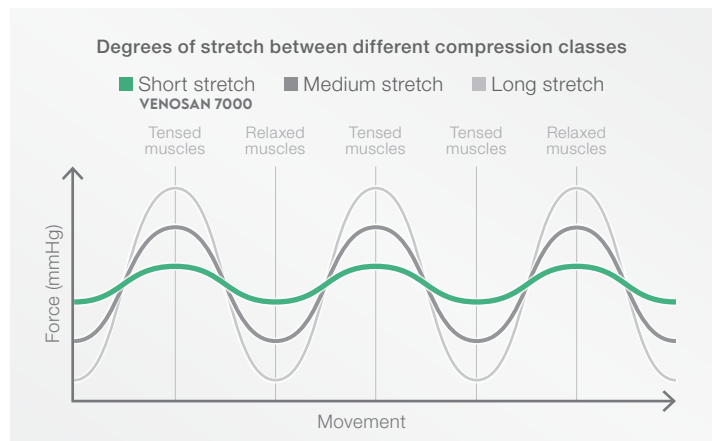

**VENOSAN® 7000** medical-grade compression stockings offers high containment of varicose veins, mild lymphedema, and various moderate to severe venous disease conditions. Its unique combination of organic SeaCell®, soft TACTEL® microfiber, and cotton creates its natural touch. The natural SeaCell is designed to help support regeneration and overall skin health, while its stiffness provides an increased massage effect. Its durable knit construction makes it an excellent stocking for people who demand a lot from their stockings at work, in sports, or in their leisure time.

### Indications

- Moderate to severe swelling
- Secondary viscosities
- Chronic Venous Insufficiency (CVI) I, II, III
- Lipedema grade 2–3
- Post-op recovery (Ulceration)
- After acute thrombosis (after bandaging)
- PTS (Post Thrombotic Syndrome)
- Light lymphoedema
- Pronounced orthostatic stress
- Inflammatory skin problems

### Options

<b>Compression</b>	20–30 mmHg, 30–40 mmHg, 40–50 mmHg
<b>Toe Style</b>	Open toe, Closed toe
<b>Fit</b>	Standard, Made to Measure
<b>Colours</b>	<div style="display: flex; gap: 10px;"> <div style="background-color: #c8a28c; border-radius: 50%; width: 30px; height: 30px; display: flex; align-items: center; justify-content: center;">Beige</div> <div style="background-color: #000000; border-radius: 50%; width: 30px; height: 30px; display: flex; align-items: center; justify-content: center;">Black</div> </div>

\*Stiffness is the increase in pressure underneath a compression stocking in relation to the increase in circumference of the leg due to muscular contraction when standing and walking.
